DISTRIBUTION BASES

MTDC excludes equipment, capital expenditures, charges for patient care, rental costs, tuition remission, scholarships and fellowships, participant support costs and the portion of each subaward in excess of \$25,000.

SECTION II - GENERAL TERMS AND CONDITIONS

A. LIMITATIONS: Use of the rates set forth under Section I is subject to availability of funds and to any other statutory or administrative limitations. The rates are applicable to a given grant, contract or other agreement only to the extent that funds are available and consistent with any and all limitations of cost clauses or provisions, if any, contained therein. Acceptance of any or all of the rates agreed to herein is predicated upon the following conditions: (1) that no costs other than those incurred by the institution were included in this indirect cost pool as finally accepted and that such costs are legal obligations of the institution and allowable under governing cost principles; (2) that the same costs that have been treated as indirect costs are not claimed as direct costs; (3) that similar types of costs have been accorded consistent accounting treatment; and (4) that the information provided by the institution which was used as a basis for acceptance of the rates agreed to herein, and expressly relied upon by the Government in negotiating and accepting the said rates is not subsequently found to be materially incomplete or inaccurate.

B. ACCOUNTING CHANGES: The rates contained in Section I of this agreement are based on the accounting system in effect at the time the agreement was negotiated. Changes to the method(s) of accounting for costs, which affect the amount of reimbursement resulting from the use of these rates require the prior written approval of the authorized representative of the cognizant agency for indirect costs. Such changes include but are not limited to changes in the charging of a particular type of cost from indirect to direct. Failure to obtain such approval may result in subsequent cost disallowances.

C. PREDETERMINED RATES: The predetermined rate contained in this agreement is not subject to adjustment in accordance with the provisions of 2 CFR Part 200, subject to the limitations contained in Part A of this section.

D. FIXED RATES WITH CARRY-FORWARD PROVISIONS: The fixed rates contained in this agreement are based on estimates of the costs for FY 2025. When actual costs for this fiscal year are determined, adjustments will be applied to a rate negotiation for a subsequent fiscal year to recognize the difference between the FY 2025 estimated costs used to establish the fixed rates and the negotiated actual FY 2025 costs.

E. CARRY FORWARD AMOUNTS: The following FY 2022 Final and FY 2023 Estimated carry-forward amounts were included in the establishment of the FY 2025 rates:

Note () denotes over-recovery

	FY22 Final	FY23 Estimated
<u>Main</u>	<u>Carry-forward</u>	<u>Carry-forward</u>
OR On Campus	\$29,788	\$0
OR Off Campus	\$14,631	\$0
OSA On Campus	\$289,933	(\$3,324,516)
OSA Off Campus	\$14,634	(\$304,845)
<u>EMRTC</u>		
Facility Support	\$192,780	\$500,000

F. USE BY OTHER FEDERAL AGENCIES: The rates set forth in Section I are negotiated in accordance with and under the authority set forth in 2 CFR Part 200. Accordingly, such rates shall be applied to the extent provided in such regulations to grants, contracts, and other agreements to which 2 CFR Part 200 applies, subject to any limitations in part A of this section. Copies of this document may be provided by either party to other federal agencies to provide such agencies with documentary notice of this agreement and its terms and conditions.

G. DFARS WAIVER: Signature of this agreement by the authorized representative of the New Mexico Institute of Mining and Technology and the Government acknowledges and affirms the University's request to waive the prohibition contained in DFARS 231.303(1) and the Government's exercise of its discretion contained in DFARS 231.303(2) to waive the prohibition in DFARS 231.303(1). The waiver request by the New Mexico Institute of Mining and Technology is made to simplify the University's overall management of DoD cost reimbursements under DoD contracts.

H. SPECIAL REMARKS:

1. The New Mexico Institute of Mining and Technology uses off-campus rates for sponsored projects that are conducted: (1) in leased facilities where space-related costs, e.g. rent, utilities, and maintenance, are charged directly to the project, or (2) in facilities made available at no cost to the project by another university, the federal government or by any other non-institute organization.

2. The Government's agreement with the rates set forth in Section I is not an acceptance of the New Mexico Institute of Mining and Technology's accounting practices or methodologies. Any reliance by the Government on cost data or methodologies submitted by the New Mexico Institute of Mining and Technology is on a non-precedence-setting basis and does not imply Government acceptance.
